7. The heat destroys their fields.
8. We hope some plants make it.

Listening

They had a heatwave in Europe this summer. The temperature was extremely high. It was hot and then it got even hotter. It was one of the hottest summers on record. The weather was not pleasant for anyone and it became dangerous. The extreme heat dried out the

earth. It was drier than any other year. Many farmers suffered because their fields were destroyed. People did not leave their homes because it was dangerous to be outside. There were fires in the forests. This extreme heat was a disaster for many parts of Europe.

Questions

1. Where was the heatwave?
2. What does, 'hottest summer on record' mean?
3. Why did the heat cause a problem for the farmers?
4. Why was it dangerous to be outside?
5. Why do you think the extreme heat was a disaster?

Conversation

**Will the extreme heat destroy the fields?**

1. Certainly, the farmers are worried .
2. No, but the dry weather can.

What advice can you give me to stay cool?

1. If you are worried, stay indoors.
2. Heat rises, so stay down low.

It is not pleasant to be outside in the heat!

1. I think the hottest days are the best.
2. Certainly, I agree that it's not pleasant.

It is strange that the weather is very dry.

1. I agree it is strange, but I like dry weather.
2. Certainly not! Heat does not cause rain.
